1. According to OSHA, noise is hazardous if workers are exposed to noise over ______________ over an 8-hour workday.
   A. 60 dB  
   B. 70 dB  
   C. 80 dB  
   D. 90 dB

2. Exposure to high noise levels can cause ________________
   A. Permanent hearing loss  
   B. Poor eyesight  
   C. Loss of sense of smell  
   D. Numbness in hands

3. Companies must create an effective hearing conservation program whenever noise exposure is at or greater than ________________ dB over an 8-hour workday.
   A. 70  
   B. 75  
   C. 80  
   D. 85

4. Your company’s hearing conservation program may include ________________.
   A. Not telling workers noise monitoring results  
   B. Workplace noise monitoring  
   C. Requiring workers to provide their own audiograms  
   D. Asking workers to provide their own hearing protection

5. You may be affected by hazardous noise if you ________________.
   A. Have trouble hearing a coworker an arm’s length away  
   B. Do not have trouble hearing a coworker any distance away  
   C. Do not hear ringing or humming in your ears when you leave work  
   D. Do not experience hearing loss when leaving work

6. Engineering controls include selecting low-noise tools and machinery, maintaining and lubricating equipment, and ________________.
   A. Enclosing or isolating the noise source  
   B. Limiting the amount of time a worker is exposed to the noise source  
   C. Keeping workers a safe distance away from noisy equipment  
   D. Personal protective equipment

7. ________________ protection is used to block the path that noise takes into the body.
   A. Fall  
   B. Hearing  
   C. Foot  
   D. Hand

8. Hearing protection is selected based on its ________________, which measures how well a hearing protector blocks noise.
   A. NRR  
   B. PEL  
   C. APF  
   D. TWA

9. ________________ recommends using two forms of hearing protection together if exposure exceeds 100 dB TWA.
   A. PEC  
   B. OSHA  
   C. NIOSH  
   D. ANSI

10. Earmuffs and ________________ are two common types of hearing protection.
    A. Earplugs  
    B. Gloves  
    C. Faceshields  
    D. Respirators
Instructors: The following key shows the answers for the Hearing Loss Prevention safety meeting quiz.

1. D
2. A
3. D
4. B
5. A
6. A
7. B
8. A
9. C
10. A
